Changing Health Care for Good.®

A Message from the President

Aloha Colleagues and Friends!

Welcome to the National Medical Association's 2019 Annual Convention and Scientific Assembly. This year, as always, is a dynamic, intellectually stimulating, and compelling scientific program. We begin the Convention with some of our signature events: Walk A Mile with A Child which promotes health and wellness for our children and their families, and will expose our youth to African American physicians; the Mazique Symposium will address gun violence prevention and reduction; the Plenary Session whose topic is Physician Sustainability/Burnout/Resiliency; and the Opening and Award Ceremony will honor NMA physicians and medical students who have been instruments of change and have had a profoundly positive impact in the profession, the community, and abroad.

The NMA's Specialty Sections have assembled excellent educational programs which include the latest discoveries and advances in medicine. I hope everyone will participate in those sessions, as well as, visit our Exhibit Hall, attend the Presentation Theaters, and support the Auxiliary in their various activities.

It has been an extremely exciting and productive year as your 119th President. I have spent the past year promoting NMA as the preeminent authority on all issues involving the health and well-being of African Americans and increase our presence on the national stage. This is a continuous effort for all of us, especially our leadership. It is imperative that the National Medical Association's voice is part of any local, national, and international conversation addressing the plight and challenges of African American physicians and the patients we serve.

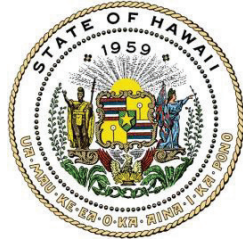

We are the collective voice for African American physicians and a force for parity and justice in healthcare.

I look forward to seeing everyone as we take advantage of this robust program and enjoy the sites, the food, the Native customs, and magnificent beauty of this amazing Island!

Sincerely,

A handwritten signature in cursive script that reads "Niva Lubin-Johnson MD".

In Recognition of

**82nd Annual Convention of the
Auxiliary to the National Medical
Association & the NMA Annual
Convention and Scientific Assembly**

July 27-31, 2019

On behalf of the people of Hawai'i, I send a warm aloha to all those attending the 82nd Annual Convention of the Auxiliary to the National Medical Association (ANMA) held in conjunction with the National Medical Association (NMA) Annual Convention and Scientific Assembly, one of the leading medical science and African American health forums in the United States.

Founded in 1936, ANMA is comprised of the spouses of NMA active members and widows and widowers of past members. Its mission is to operate exclusively for charitable and educational purposes in consumer health and healthcare for America's underserved communities. This year's ANMA theme is "Continuing the Fight of Opioid Addiction through Prevention, Education, and Behavioral Therapies in the African-American Communities: C.O.P.E." Opioid addiction is a big challenge that our nation is facing today, and I applaud ANMA for its efforts in addressing this critical issue during their convention.

We are honored that ANMA has chosen Honolulu, Hawai'i as the location for this year's convention and scientific assembly. For those visiting the Aloha State, we hope you will have an opportunity to explore the beauty of our islands and experience the true spirit of aloha. Best wishes for a productive and enjoyable convention.

With warmest regards,

DAVID Y. IGE

Message from U.S. Senator Brian Schatz
Presented in Recognition of the
2019 National Medical Association
Annual Convention and Scientific Assembly

July 27-31, 2019

Aloha and welcome to everyone gathered here for the 2019 National Medical Association Annual Convention and Scientific Assembly.

Since 1895, the National Medical Association (NMA) has been the leading advocate for African-American physicians in the United States. The NMA Annual Convention and Scientific Assembly is an opportunity for thousands of African-American health professionals to discuss the latest medical advancements, review and develop health policy agendas, and build connections and networks in the health industry. Through their work, the NMA has spearheaded solutions to health issues found in minority communities and provided over 50,000 physicians with a unified voice.

Mahalo to the NMA for your commitment to providing quality resources to professionals across the country. Best wishes for a productive conference.

Mahalo,

MESSAGE FROM U.S. SENATOR MAZIE K. HIRONO

In honor of the National Medical Association's 2019 Annual Convention and Scientific Assembly

July 27-31, 2019

Aloha and welcome to everyone attending the National Medical Association's Annual Convention and Scientific Assembly. I regret that due to my legislative duties in Washington, D.C., I am not able to join you on this special occasion.

Since 1895, The National Medical Association has continually served the African American community and advocated for equitable and quality health care. This convention is an opportunity for medical and academic professionals to share and exchange knowledge and collaborate with convention participants on research, policy, and practice. Through wellness initiatives and public outreach such as *Walk a Mile with a Child*, the NMA's impact on the health of communities of color is significant.

I join with you in working to eliminate the health disparities that affect the most underserved people and communities in our nation. Together with organizations such as the National Medical Association, we can overcome the challenges that minority communities face in their pursuit of health and wellness.

Mahalo to the National Medical Association, the Auxiliary to the National Medical Association, and all the participants in this year's Convention and Assembly. My best wishes for your continued success.

Aloha,

NATIONAL MEDICAL ASSOCIATION
2019 Annual Convention and Scientific Assembly
Hilton Hawaiian Village

Aloha!

I am pleased to extend my warm greetings to all who are attending your Annual Convention and Scientific Assembly here in Honolulu.

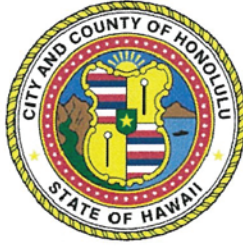

I understand this is the fifth time the National Medical Association has convened this meeting in our islands to discuss issues such as the scholarly exchange of medical advances and the development of health policy. Mahalo for joining us! This meeting is held amidst challenges not just for your profession but for health care generally in our country. The landmark Affordable Care Act remains the subject of heated debate. The shortage of physicians and other health care providers across the country is hampering the delivery of medical services. In Hawai'i alone, there is a shortage of close to 800 physicians. And the aging of America is straining the future funding of Medicare and Medicaid.

We in the United States Congress are acutely aware of these and other challenges that threaten our means to deliver affordable and accessible medical care to all. I am heartened that we are not alone in this struggle – we can count on health professionals and advocates with the National Medical Association to work with all who are committed to improving the health condition of all Americans. Please know that you have my best wishes for a successful convention here in the islands – and we will certainly welcome you back in the years ahead!

With aloha,

Ed Case

MESSAGE FROM MAYOR KIRK CALDWELL

It gives me great pleasure to send my warmest aloha to the physicians and health care professionals attending the National Medical Association Annual Convention and Scientific Assembly.

With its focus on informing members of the latest changes and innovative practices in healthcare, this convention is a key event of the organization. The event engages members in discussing procedures vital to their patients in an environment that is conducive to open discussions. Participation in policy and strategy discussions will advance the association, expand member services and prepare the association for the changes to come.

Congratulations to Dr. Oliver Brooks on being installed as the 120th President. I extend deep appreciation to Dr. Niva Lubin-Johnson for serving as President, Speaker, and Chair of the Board of Trustees. Mahalo to the officers, directors and staff for organizing and presenting this major event in Honolulu. We hope you will take time to enjoy the many sites, activities and recreational opportunities that O'ahu has to offer.

On behalf of the people of the City and County of Honolulu, I extend best wishes for a memorable and productive convention.

NMA Membership

Our Mission

To advance the art and science of medicine for people of African descent through education, advocacy, and health policy to promote health and wellness, eliminate health disparities, and sustain physician viability.

Since its inception in 1895, the National Medical Association (NMA) has represented the specific interests of African-American physicians and their patients. Today, the collective talent and dedication of the membership allows the NMA to continue as the conscience of American medicine by working to eliminate health disparities in health care. NMA remains committed to improving the quality of health among minorities and disadvantaged people through its membership, professional development, community health education, advocacy, research, and partnerships with federal and private agencies.

Each Member Matters

Medical care for the disadvantaged and minority communities remains substandard, highlighting the historical gaps in the level of service based on minority patients receiving less than adequate care. We read and hear about them on the news and recognize them in trends outlined in various studies. But there's the other side of the story. For each negative anecdote, there is an instance where a NMA physician made the remarkable difference by using the network and resources of the NMA to improve the quality of the life of a patient. It may have been by referring the patient to one of our community-based programs, using information published in the JNMA or simply networking with other NMA members about the case. That member mattered—to the patient, their loved ones and their community.

The strength of the NMA remains the shared commitment of all members. Each professional touches the lives of hundreds of patients every year as a health care professional, researcher, teacher or mentor. Those collective experiences bring a unique perspective to the field and practice of medicine. Become a member of the NMA and witness how your personal experience can have a much greater impact—as an example to your peers, a force of change in your community or furthering critical research that levels the field.

Be a Part of Our Mission

Here are **five reasons why you should be a member** of the National Medical Association:

1. **Pride and Leadership** - The NMA has more than a hundred years of fighting against health disparities within African American and minority communities, as well as promoting the importance of African American physicians in health care.
2. **Advocacy** – The NMA has historically been an unwavering advocate for health policies that improve the quality and availability of health care for African Americans and other underserved populations.
3. **Community Outreach** – We have always been committed to prevention, wellness and promoting a healthy lifestyle among our members and the communities we live in. NMA conducts national consumer education programs on cancer, HIV/AIDS, diabetes, obesity, cardiovascular disease, stroke and other health issues impacting our communities.
4. **Education** – Our robust Continuing Medical Education programs for the Annual Convention and Scientific Assembly, Regional and State and Local Society meetings are developed and comprised by our 25 Scientific Specialty Sections.
5. **Scholarly Exchange** – The *Journal of the National Medical Association* has been published since 1909 with a special emphasis on the application of medical science to improve health care. The articles contained in the *Journal* provide a vehicle for publishing scholarly papers and articles from leading scientists from around the world. The topics covered provide insight into some of the most relevant and current health care issues that we all face.

Professional Member Benefits

Here is a look at what you will receive as part of your NMA membership:

NMA permits and encourages the use of social media, such as Facebook, Twitter, Instagram, YouTube, and blogging at the conference as a way to summarize, highlight, excerpt, review, critique, and promote the presented materials, syllabus materials, or the conference in general, provided that:

- copyright laws are observed;
- verbatim information is limited to a few quotes; and
- the author or speaker is referenced and cited appropriately.

Out of respect for the other participants, we ask that noise-making electronic devices be silenced, though they need not be turned off. We understand that they may be used to follow along in the syllabus, tweet, or take notes in accordance with the below stated social media policy.

PARTICIPATION POLICIES & DISCLAIMERS

Code of Conduct: Convention attendees and participants agree to conduct themselves in a manner appropriate for a gathering of health professionals. Inappropriate behavior or unauthorized demonstrations or gatherings creating a disturbance or safety hazard are prohibited inside any meeting facility and the exhibit hall. Participants found disrupting any part of the NMA Convention and Scientific Assembly, conducting themselves in a manner unbecoming of a health professional, or violating these policies will be asked to leave the session or facility and may be prohibited from further Convention attendance.

Name Badges: For security reasons, badges must be worn at all times. Badges are required for admittance to all annual meeting sessions, exhibit hall, and events at the convention center and NMA headquarter hotel.

Cellular Telephones and Pagers: NMA requests that all cellular phones and pagers be placed on mute/vibrate and that participants abstain from talking on mobile devices in the meeting rooms as a courtesy to other meeting attendees.

Smoking: Smoking is not permitted in the convention center.

Children: The NMA Convention is a professional development event and due to safety liability issues, children under age 18 are not permitted in the Exhibit Hall (this includes children in strollers).

Photographing, Video, and Audio Recording: The National Medical Association (NMA) and its contractors may be photographing, videotaping, or audio taping scientific sessions and events at the Convention and Scientific Assembly. By attending the NMA Convention, attendees acknowledge these activities and agree to allow their image to be used by NMA in Association publications, on the NMA's website, social media sites (for example, Facebook, Google+, LinkedIn, Snapchat, Twitter, Veimeo, YouTube), and in marketing and promotional materials. Photographic images may also be shared with the media. Attendees at the NMA Convention and Scientific Assembly waive all claims against NMA for any liability resulting from these uses. Working journalists wishing to obtain press credentials must register with the NMA Press Office.

Social Networking: We expect that participants of the annual convention will treat each other with respect. We will delete posted comments that contain vulgar or abusive language; pornography; personal attacks of any kind; offensive terms that target specific ethnic or racial groups or incite violence. We will delete comments that are spam, are clearly “off topic” or that promote services or products. Comments that make unsupported accusations will be taken out of the discussion.

- Views expressed in content on NMA social media sites (for example, Facebook, Instagram, Google+, LinkedIn, Snapchat, Twitter, Vimeo, YouTube) are not necessarily representative of NMA views or policy.
- The use of vulgar, offensive, threatening or harassing language is prohibited.
- The discussion forum is not open to comments promoting or opposing any person campaigning for election to a political office or promoting or opposing any ballot proposition.
- The NMA social media sites are not open to the promotion or advertisement of a business or commercial transaction.

Join the president and board of trustees chair as they, along with NMA's national and local leadership, welcome attendees to the official opening of the Annual Convention and Scientific Assembly. During the opening ceremony, individuals of national and international stature whose efforts significantly benefit health and medicine will be recognized with the NMA Scroll of Merit Award. Four other awards are conferred to honor luminaries and medical societies that have demonstrated exemplary leadership. These awards include Practitioner of the Year, Distinguished Service, Meritorious Achievement, and Local Society of the Year. The W. Montague Cobb/NMA Health Institute will also honor distinguished members of the medical/health community, and the Postgraduate Section will recognize the Top Healthcare Professionals Under 40.

The Council on Concerns of Women Physicians' Annual Muriel Petioni, M.D. Awards Program

Sunday, July 28 • 11:30 pm–2:00 pm

Kalakaua Ballroom B

*Ticket purchase required \$125. Doors Open at 11:30 am.
Program starts promptly at 12:00 pm*

The NMA supports and encourages diversity in medicine. The Council on Concerns of Women Physicians (CCWP) was established to address the unique issues, concerns and policies regarding the advancement of female physicians. The CCWP Annual Muriel Petioni, M.D. Award Program has become a highlight of the NMA Annual Convention and Scientific Assembly. Each year this event is one of the most well attended programs during the convention. Past keynote speakers include Regina King, Maya Angelou, Phylicia Rashad, Angela Bassett, Dianne Carroll, Patti LaBelle, Judy Smith, Donna Brazile, Dr. Jocelyn Elders, and Anita Hill. It is attended by both men and women in all medical specialties and recognizes female physicians who through research, community service and activism, strive to eliminate health care disparities, provide people of color with quality health care, and address women's health and professional issues

Quita Highsmith, M.B.A., Head of Alliance and Advocacy Relations at Genentech and Co-Lead for Advancing Inclusive Research.

There are well-characterized disparities in clinical research. Data representative of real world patient populations is required to optimize clinical outcomes for all patients.

Clinical and genetic data must be enriched to include more representative patient populations to evolve the promise of personalized healthcare to achieve more accurate diagnoses, improve access to therapies, and optimize treatment outcomes for all patients.

Goals of this session:

- REVIEW the value of Advancing Inclusive Research™
- INCREASE awareness of opportunities to engage diverse stakeholders

CONTINUING MEDICAL EDUCATION

Who Should Attend

The 2019 National Medical Association's Annual Convention and Scientific Assembly is planned as an educational reinforcement for practicing physicians, related health professionals, trainees and residents representing a variety of medical specialties and health professions.

Format

Workshops "hands on" activities and seminars addressing critical concerns of medical specialists will be held on Saturday and Sunday. Lectures, panels, and demonstrations will be provided throughout the week. Guest health care provider lecturers from leading institutions, National Medical Association physician experts, basic scientists, and residents and students in competition will bring to the Assembly current management of diseases confronted in today's medical practice.

Program Objectives

The scientific activity is designed to provide educational enrichment through special sessions, postgraduate courses and specialty sessions from twenty-four separate specialties. In-depth review of updated diagnostic methods and therapeutics will be discussed in an effort to prepare the participating physician for current medical practice in his/her field of specialty. Combined specialty sessions will provide opportunities for exchange of ideas and debate.

Educational Credits

The National Medical Association is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical Education for physicians.

The National Medical Association designates this live activity for a maximum of 40 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The following U.S. state licensing required subjects will be presented during the scientific assembly activities:

- Care of the Terminally Ill
- Cultural Competency
- Family Abuse
- HIT/EMR
- HIV/AIDS
- Mammography
- Medical Ethics
- Pain Management
- Practice Management
- Risk Management

Disclosure

Lecturers, panelists, and planning committee members have disclosed relationships with commercial organizations. These relationships are also to be disclosed by the lecturer at the time of presentation.

OFF LABELED DRUGS: All speakers must acknowledge the status of drugs discussed and not approved for in-patient care.

CME Certification Registration

All scientific sessions throughout the week are open to registered convention participants. However, pre-registration may be required for special workshops.

"On-Site" credit claim forms will be available only by request. On-site credit forms must be signed by the section chair or his/her designee. Please be sure to keep the original copy of the "On-Site" credit form for your records and submit one copy to the section chair or his/her designee. A certified credit certificate, signed by the CME Director, will be sent to you in approximately 30 days post activity.

All credit hours will be awarded to the registrant based on:

- Full Payment of Assembly Registration
- Session Attendance
- Completed Evaluation

Failure to meet these requirements may result in denial of credit award.

PAST PRESIDENTS LEADERSHIP FORUM

(Free and open to all registered attendees)

Saturday, July 27 • 11:00 am – 12:30 pm

Meeting Room 313A

Leadership opportunities abound within the National Medical Association. But too often the path to leadership seems vague and difficult to navigate. But you would be amazed at how similar the journey is for members who have successfully achieved local, regional or national office. More importantly what you can do for the health of your colleagues and the African Americans we serve within our community is unlimited; if you decide to be involved. The Past Presidents understand better both the path to leadership in the NMA and satisfaction of a job well done.

We want to encourage you to take the road less travelled and gather a few tips from those who lead now and those who have lead in the past.

CAMP NMA-ZING YOUTH 2019 PROGRAM

Activity Descriptions

The preliminary program activities have been carefully selected with the goal of providing a wide range of age-appropriate, educational, social and cultural experiences unique to Honolulu, HI. Kama'aina Kids will work with the NMA convention planners to develop a program which is convenient for parents and conventioners, as well as, enjoyable and memorable for participants. The following activity descriptions detail the Camp NMA-Zing Youth 2019 Program. Activities are subject to change due to availability in July 2019.

1. Kualoa Ranch is a 4000-acre private nature reserve and working cattle ranch, as well as a popular tourist attraction and filming location on the windward coast of O'ahu. Kualoa offers a wide range of outdoor experiences for school groups to learn about Hawai'i's natural environment and celebrate our rich island heritage.
2. Circus 'Olina specializes in the acrobatic aspect of circus arts and creates joy for people of all ages with their workshops and shows. Kids may learn how to unicycle, juggle, spin spinning plates, tight rope walk and more.
3. A Dance Workshop will be choreographed and led by our very own UH Rainbow Warrior dancer and Group Leader Joel Cabucana.
4. Teens will enjoy a safe archery workshop, which promotes a healthy body, mind and spirit.
5. Field Games will be coordinated and led by our very own fitness expert and Coordinator Tracy Lessary.
6. Project Sun is an annual event conducted by the Auxiliary to the National Medical Association (ANMA) for youth, ages nine and up.
7. Polynesian Cultural Center is Hawai'i's top visitor attraction with villages and exhibits representing the eight cultures of Aotearoa, Fiji, Hawai'i, Marquesas, Samoa, Tahiti, Tonga and Easter Island. Set on 42 acres of O'ahu's North Shore, the center has a lagoon that hosts canoe tours and an exciting canoe pageant. Additionally, the Coral Reef Adventure IMAX show will teach us the importance of coral reefs. A variety of island games and traditions will show us the easy going and sustainable way of life throughout the Polynesian Islands.
8. Wet'n'Wild Hawai'i is one of O'ahu's most visited family attraction. Nestled on 29-acres of lush tropical cliffs, the park features more than 25 exhilarating attractions. Whether you're the timid lazy river type or a thrill seeker, an adventure awaits you at Wet'n'Wild.
9. Mark Marucio provides us with an evening of mystery, fantasy and refreshing family comedy. His mind-boggling illusions will keep us spellbound and at the edge of our seats.
10. Pacific Aviation Museum is a unique, interactive museum located near the Battleship Missouri in the battlefield hangers of historic Ford Island, which were attacked by the Imperial Japanese Navy on December 7, 1941, the beginning of WWII. We will enjoy historic videos, planes and the combat flight simulators, which honor aviators and support personnel who defended freedom in the Pacific Region.
11. Straight out of Camp NMA-Zing are our very own superstars The Gore Boyz! There's no better way to kick off our teen dance than with an upbeat TGB performance.
12. The Camp NMA-Zing Talent Show gives our young stars a chance to shine. Groups will practice a song, dance, skit or other talent to perform for our live audience of their peers and our staff judges!
13. The Camp NMA-Zing Teen Dance, for ages 12 and up, is an onsite dance party for youth to unwind, express imagination and artistry, and celebrate with their friends. A live DJ, lighting effects, dance contests and more will make this last evening of camp one to remember.

SUNSET CRUISE, DINNER, AND SHOW

Sunday, July 28, 2019 5:30 P.M.-8:00 P.M.

Embarkation at 4:30 P.M. at Hilton Hawaiian Village

Attire: Casual, but no shorts or short pants

Aloha from our ANMA president, as she invites you to join us for an amazing Star Buffet and Sunset Evening Cruise with a delectable buffet, Polynesian show, and incredible grandeur. You will be welcomed on the cruise with a Star signature Mai Tai, champagne, or sparkling cider to share the spirit of Aloha as you experience the pleasures of paradise with incredible ocean views. A variety of entertainment awaits you beginning with the pier-side welcome hula followed by a "Polynesian Journey" show with audience participation; relaxing Hawaiian music, including strolling musicians to take request, and dancing until disembarkation.

AFRICAN-AMERICAN HERITAGE TOUR

Tuesday July 30, 2019 12 Noon-4:00 P.M.

Explore Hawaii Black History with our custom-made tour of prolific African-American figures and notable sites that have impacted the culture of Hawaii. This tour unveils one of the islands hidden untold stories. The bus and minimal walking tour will consist of: 1) The early years of President Obama and 2) black life experiences conveyed in the Pōpolo Project (Pōpolo is Hawaiian slang for black people and has its origin in a plant that produces blackberries). We will tour schools attended by

President Obama, the neighborhoods where he lived, the apartment building where his mother and grandparents lived, the neighborhood housing the Baskin Robbins where President Obama worked, the planned site for The Barack Obama Presidential Center (located in Jackson Park on the South Side of Chicago, near the University of Chicago) campus and stories about the young Barack Obama. We will learn about Dr. Akiema Glenn, her role in the Pōpolo Project which documents the history of black people in Hawaii, and share some of those stories, including referenced sites in stories by local blacks. Lunch will be provided.

PACESETTER TRAILBLAZER SCHOLARSHIP LUNCHEON

Monday, July 29, 2019 12:00 Noon-3:00 P.M.

This year, the annual luncheon will feature a panel discussion with three outstanding female pacesetters and trailblazers of Hawaii. Invited to serve on the panel are Judge Sandra Simms, the First African-American Female Judge in Hawaii (now retired) and a passionate community volunteer; Ms. Marsha McFadden, Managing Editor of the Honolulu Star-Advertiser, whose journalistic skills helped the Star-Advertiser become and Ms. Maya Soetoro-Ng, former Director of Community Outreach and Global Learning, University of Hawaii, and half-sister of President Barack Obama. The moderator will be Sharon Yarbrough, Founder and President of Sisters Empowering Hawaii (SEH) - Hawaii's Foremost Women's Empowerment Organization, an organization designed to educate, inspire, motivate, and empower all women. The panelists will share their road to success and how they removed barriers. The Luncheon will be held from noon until 3:00 PM at the Hilton Hawaiian Village.

Routine HIV Screening. Every Patient.

CDC recommends HIV screening for all patients ages 13-64

An estimated **1.1 million** people in the United States are living with HIV, and approximately **1 in 7** are unaware of their status and would benefit from treatment. Early detection and treatment means your patients can live longer, healthier lives and help prevent further HIV transmission.

For free materials to incorporate HIV screening into your practice, call 1-800-CDC-INFO or visit:

Advancing Inclusive Research

There are well-characterized disparities in clinical research. Data representative of real world patient populations is required to optimize clinical outcomes for all patients.

Clinical and genetic data must be enriched to include more representative patient populations to evolve the promise of personalized healthcare to achieve more accurate diagnoses, improve access to therapies, and optimize treatment outcomes for all patients.

Goals of this session:

- REVIEW the value of Advancing Inclusive Research™
- INCREASE awareness of opportunities to engage diverse stakeholders

Sponsored by: **Genentech**

Penn State Health

Penn State Health is a multi-hospital health system serving patients and communities across 29 counties in central Pennsylvania. It employs more than 14,000 people systemwide.

The system includes Penn State Health Milton S. Hershey Medical Center, Penn State Children's Hospital, and Penn State Cancer Institute based in Hershey, PA.; Penn State Health St. Joseph Medical Center in Reading, PA.; and more than 2,000 physicians and direct care providers at more than 100 medical office locations. Additionally, the system jointly operates various health care providers, including Penn State Health Rehabilitation Hospital, Hershey Outpatient Surgery Center, Hershey Endoscopy Center, Horizon Home Healthcare and Pennsylvania Psychiatric Institute.

In December 2017, Penn State Health partnered with Highmark Health to facilitate creation of a value-based, community care network in the region.

Penn State Health shares an integrated strategic plan and operates with Penn State College of Medicine, the University's medical school. With campuses in State College and Hershey, PA., the College of Medicine boasts a portfolio of more than \$90 million in funded research and more than 1,700 students and trainees in medicine, nursing, other health professions, and biomedical research.

san•ko•fa

As we prepare to celebrate the 125th anniversary of our beloved National Medical Association, sage advice admonishes that we take pause. Pause to reflect, to analyze and to contemplate. Reflecting on our glorious past, analyzing our current situation and contemplating our promising future.

The African term Sankofa captures the essence of these concepts. Sankofa is a word in the Twi (pronounced Tree) language of the Akan people of West Africa that translates, Go Back and Get It. *San* - to return, *Ko* - to go and *Fa* - to fetch, to seek and take. Sankofa teaches us that we must go back to our roots in order to move forward. That is, we should reach

back and gather the best of what our past has to teach us, so we can achieve our full potential as we move forward. Whatever we have lost, forgotten, forgone or been stripped of can be reclaimed, revived, preserved and perpetuated. (www.uis.edu.africanamericanstudies/students/sankofa)

Sankofa is visually expressed as a bird that flies forward while looking backward with an egg, symbolizing the future in or near its mouth. This symbol has most appropriately been incorporated into our 125th anniversary logo.

And so, as we learn from our past, lead in the present, and launch into the future, we embrace and celebrate the NMA in the spirit of SANKOFA.
